Le emozioni sono universali, vengono espresse da tutti in qualsiasi luogo, tempo e cultura con modalità simili. Collegate ai sensi servono a conoscere l'ambiente, a “*sentire*” se a determinati contesti o situazioni ci si può avvicinare. Come sensori conoscitivi, strumenti di conoscenza. Le emozioni integrano quello che percepiamo con i nostri pensieri. Ci aiutano a costruire la nostra idea di cucina.

Emotions are universal, they are expressed by everyone in any place, time and culture in similar ways. Connected to the senses, they are used to know the environment, to “*feel*” whether certain contexts or situations can be approached. As cognitive sensors, knowledge tools. Emotions integrate what we perceive with our thoughts. They help us build our idea of the kitchen.

Appagamento per un desiderio realizzato, la sensazione di piacere che proviamo quando vediamo realizzato un nostro desiderio. La contentezza è un umore, uno stato d'animo. È qualcosa che è molto radicato nel profondo del nostro inconscio. È, in altre parole, il modo con cui ci avviciniamo agli avvenimenti della vita. Qualcosa relativo alla soddisfazione nella vita reale.

Una scelta abitativa decisa: i nostri spazi quotidiani, caldi, comodi, ampi, immersi in spazi ancora più grandi e liberi, nei boschi, distanti, isolati. Circondati dalla natura profonda a respirarne i profumi e ascoltarne i suoni, fino a rilassare la mente e il corpo, a rallentare il battito cardiaco.

A conscious lifestyle choice: our everyday spaces, warm, comfortable, spacious, immersed in even bigger, more unconfined spaces, in the woods, distant, isolated. Surrounded by profound nature, inhaling its scents and listening to its sounds, until mind and body are relaxed, and your heartbeat slows.
