

T44

T44

L'anta a telaio T44 nasce dalla volontà di interpretare spazi abitativi nei quali si respira la storia, un vissuto che parla di recupero di valori che rendono l'ambiente vivo e vibrante. Il suo telaio è ampio e il suo disegno riproduce con maestria il lavoro dell'artigiano conferendo alla composizione la "cultura" nel mobile.

The T44 framed door was born from the desire to interpret living spaces in which history is breathed, an experience that speaks of the recovery of values that make the environment alive and vibrant. Its design and the width of the frame skilfully reproduce the culture of the craftsmanship.

La porte à cadre T44 est née du désir d'interpréter des espaces de vie où l'on respire l'histoire, une expérience qui parle de la récupération des valeurs qui rendent l'environnement vivant et vibrant. Son design et la largeur du cadre reproduisent habilement la culture de l'artisanat.
